Sales Tax Audits on the Rise, Are You Prepared?

Volume 2, February 2012

Tax season, it's everyone's favorite time of year, right?

Due to overwhelming budget deficits, the number of sales tax audits is increasing. States are using tax audits as a method to decrease their shortfall.

If you don't have adequate tax records, auditors will use the industry average to determine what you owe. What does this mean? **You could be forced to pay tax on items you didn't even sell!**

Check out this [video](#) for more details.

So what's the bottom line? Have adequate tax records!
